Healing
and
Health...**

The Grateful Patient Program

At The Queen's Medical Center, patient care is a priority for each member of our health care team. You and your family deserve the best health care services and we strive to exceed your expectation each day.

Many patients have asked us how they can give back to The Queen's Medical Center in honor of the *exceptional* care they received. Queen's has established the Grateful Patient Program to provide a special opportunity for patients and family members to express their thanks.

Whether you choose to recognize a special physician, caregiver, or department that impacted your health care or that of a loved one, your contribution is a meaningful opportunity to say "thank you," and to give back to those who made a difference in your care.

Your generosity will pave the way for new avenues of healing and hope – by helping Queen's to invest in the latest healing technology and offering exceptional care to every patient that walks through our door.

In addition, our Tributes Program provides donors an opportunity to remember a special individual as an important part of their life. Gifts made in their memory offer a lasting tribute to a loved one to ensure their memory lives on.

If you would like to recognize an exceptional Queen's caregiver, submit a grateful patient story, or make a memorial gift, **please call us at (808) 691-4976 or email us at fund_development@queens.org.**
